FACTORY REFURBISHED ABRASIVE WATERJET CUTTING MACHINE

GOOD AS NEW

Pre-owned, factory rebuilt JetMachining Centers have undergone a rigorous inspection as well as hardware and software upgrades as required.

This process also includes a thorough inspection and cleaning of direct drive components.

TABLE INSPECTION

- Update to latest version of Intelli-MAX software.
- Tank condition and repaint
- Slats, slat holders and supports
- X beams, mag tape and rails
- Linear rail and ball screw
- Drive motors
- Air pressure regulator
- Precision laser inspection

PUMP INSPECTION

- Drive motor
- Replace charge pump Procon
- Belts wear and tensioning
- Pulley spacing
- 6 port manifold
- Crank case
- Soft seals
- Filter housing and filters
- Tubes and hoses
- Display and keypad testing
